# Residential

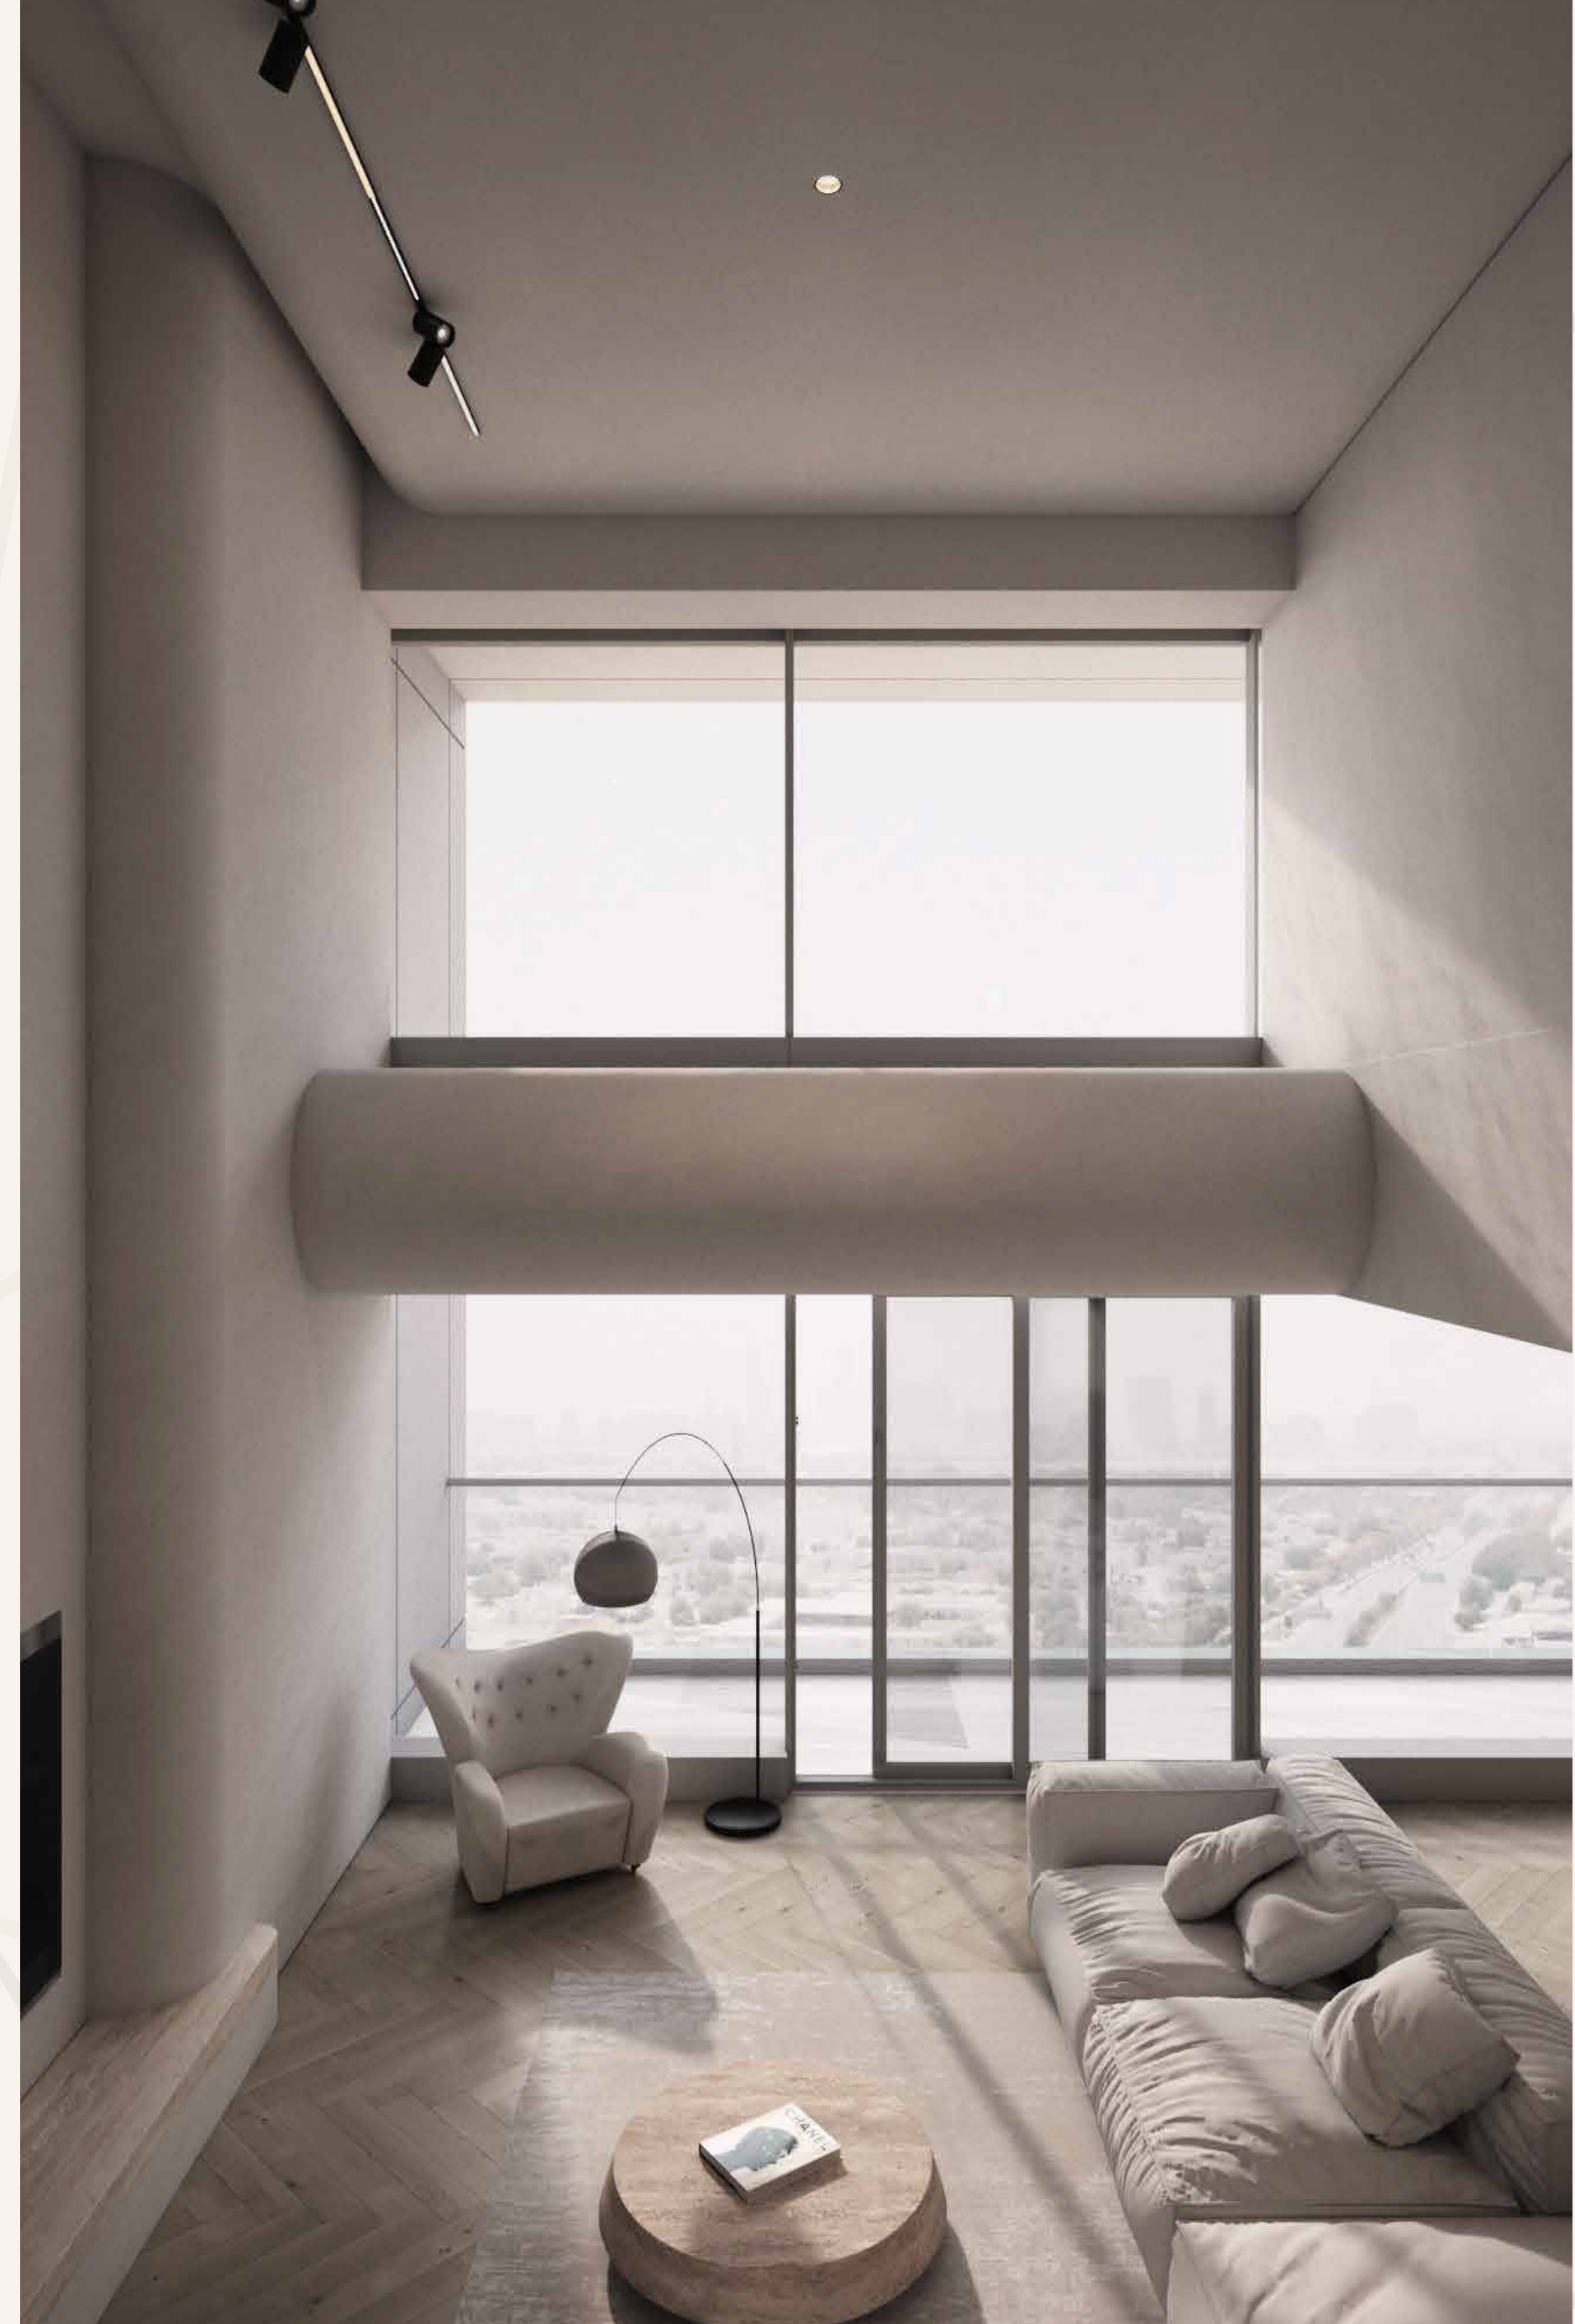

## Jumeirah Living Zaabeel

Spanning an impressive 270m<sup>2</sup>, this penthouse boasts three bedrooms alongside a maid's room.

The project underwent a complete transformation, starting with the MEP system built from the ground up.

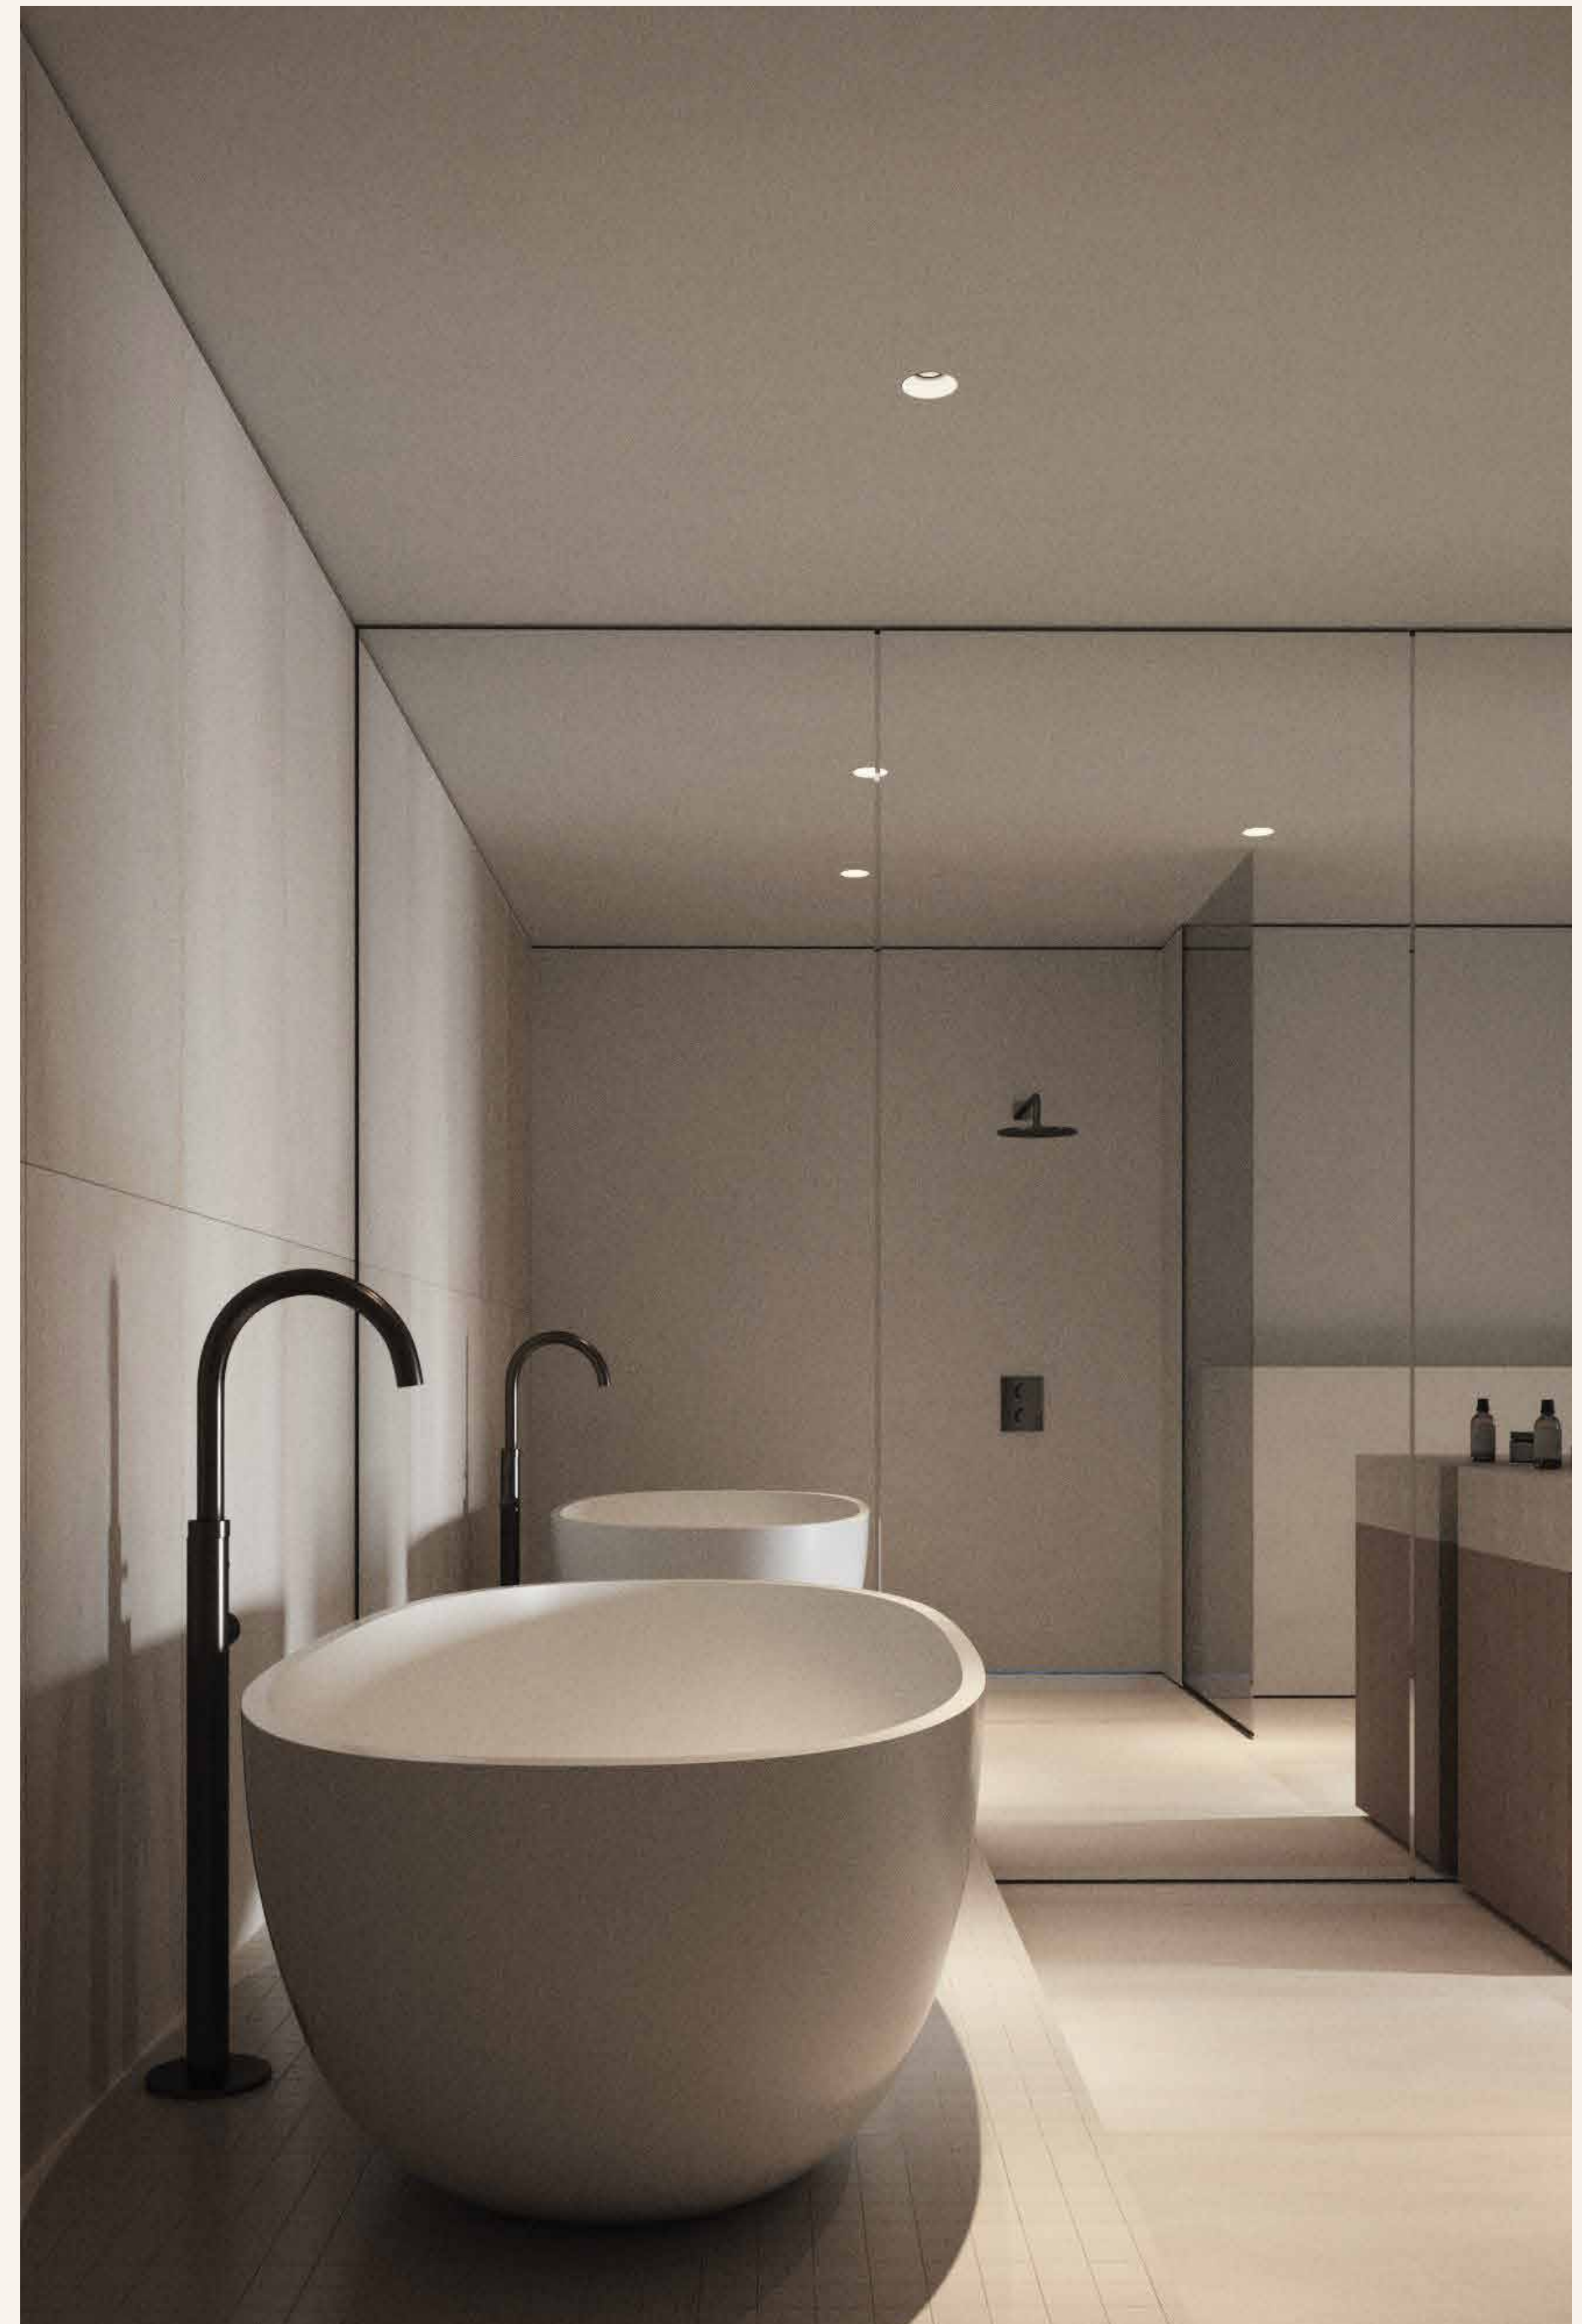

Each piece of furniture was meticulously crafted to suit the bespoke design, complemented by detailed joinery work that adorned wardrobes, kitchens, decorative cladding, and flooring.

The pièce de résistance? A stunning glass staircase featuring floating steps and concealed lighting.

Furthermore, a bedroom was ingeniously redesigned into a lavish master dressing room with an adjoining sauna and shower. The new design also seamlessly integrated hidden AC grilles and connected all functions with a cutting-edge home automation system.
